# Inleiding

# INLEIDING

In het centrum van Oostburg staat een historisch pand aan de Markt 3. In het verleden was er in dit gebouw een bank gevestigd. Inmiddels staat het pand al meerdere jaren leeg.
Een initiatiefnemer wil het pand herontwikkelen tot een hotel.

Om te zien of er aan de parkeerbehoefte kan worden voldaan in de openbare ruimte, is onderzoek nodig.
Er is op drie dagen gemeten: een dinsdag, een woensdag en een donderdag.
Door te meten op tien verschillende momenten kunnen de resultaten goed vergeleken worden.
Dat geeft een goed overzicht van de maximale parkeerdruk in het onderzoeksgebied.

# Onderzoeksopzet

# ONDERZOEKSOPZET

De Verkeerstellers heeft een parkeeronderzoek uitgevoerd om de parkeerdruk op verschillende momenten vast te kunnen leggen.

## UITVOERING

De onderzoeken zijn gehouden op drie dagen:

- Dinsdag 30 april 2024: 10:00, 14:00, 20:00 en na 23:00 uur;
- Woensdag 1 mei 2024: 10:00 en 14:00;
- Donderdag 2 mei 2024: 10:00, 14:00, 20:00 en na 23:00 uur.

## CAPACITEIT

Om de bezettingsgraad te kunnen bepalen heeft De Verkeerstellers de capaciteit opgenomen.

Er is hierbij onderscheid gemaakt in de volgende categorieën:

- Vrij parkeren op straat;
- Vrij parkeren in vakken;
- Blauwe zone plaatsen;
- Openbare gehandicaptenvakken (niet op kenteken);
- Vakken voor elektrisch laden.
- Laad- en losplaatsen.

Qua bezetting zijn daar nog twee categorieën aan toegevoegd:

- Overig (bouwmateriaal, bouwcontainer, aanhangwagens, campers, caravans, etc.);
- Foutparkeren

## BIJZONDERHEDEN

Een groot deel van het onderzoeksgebied bevindt zich binnen de blauwe zone.
Deze zone geldt van maandag tot en met zaterdag van 09:00-16:00 uur. Op zondag en van maandag tot en met zaterdag van 16:00-09:00 uur zijn deze parkeerplaatsen dus beschouwd als regulier.
Dit wordt tot uitdrukking gebracht in de onderzoeksresultaten bij "capaciteit".
Het parkeerterrein bij de Jumbo is een permanent blauwe zone (geen tijdsbeperking).

Woensdag om 10:00 en 14:00 uur is er markt en zijn de secties 18b (Ledelplein), 25d (Brouwerijstraat) en 30 (Markt) afgesloten voor verkeer. De capaciteit is op deze onderzoeksmomenten dan ook verlaagd.
Op het Ledelplein is alleen aan de noordzijde markt. Dat betreft 17 vakken.
De 13 vakken en het gehandicaptenvak aan de zuidzijde zijn gewoon bereikbaar.
Een klein gedeelte van de Brouwerijstraat is niet toegankelijk en dat betreft twee vakken.
Ten slotte is de Markt zelf is niet toegankelijk. Dat betreft 19 vakken en 1 gehandicaptenvak.

## CONCLUSIE

De maximale bezetting van het totale gebied (blauwe en niet-blauwe zone samen) wordt bereikt op woensdag 1 mei 2024 tussen 10:00 uur.
Dit moment is maatgevend voor de onderstaande conclusies.

De bezetting in het totale gebeid is dan 506.
Er kunnen dan nog 132 voertuigen in de openbare ruimte worden geplaatst, voordat een bezettingsgraad van 100% wordt bereikt.

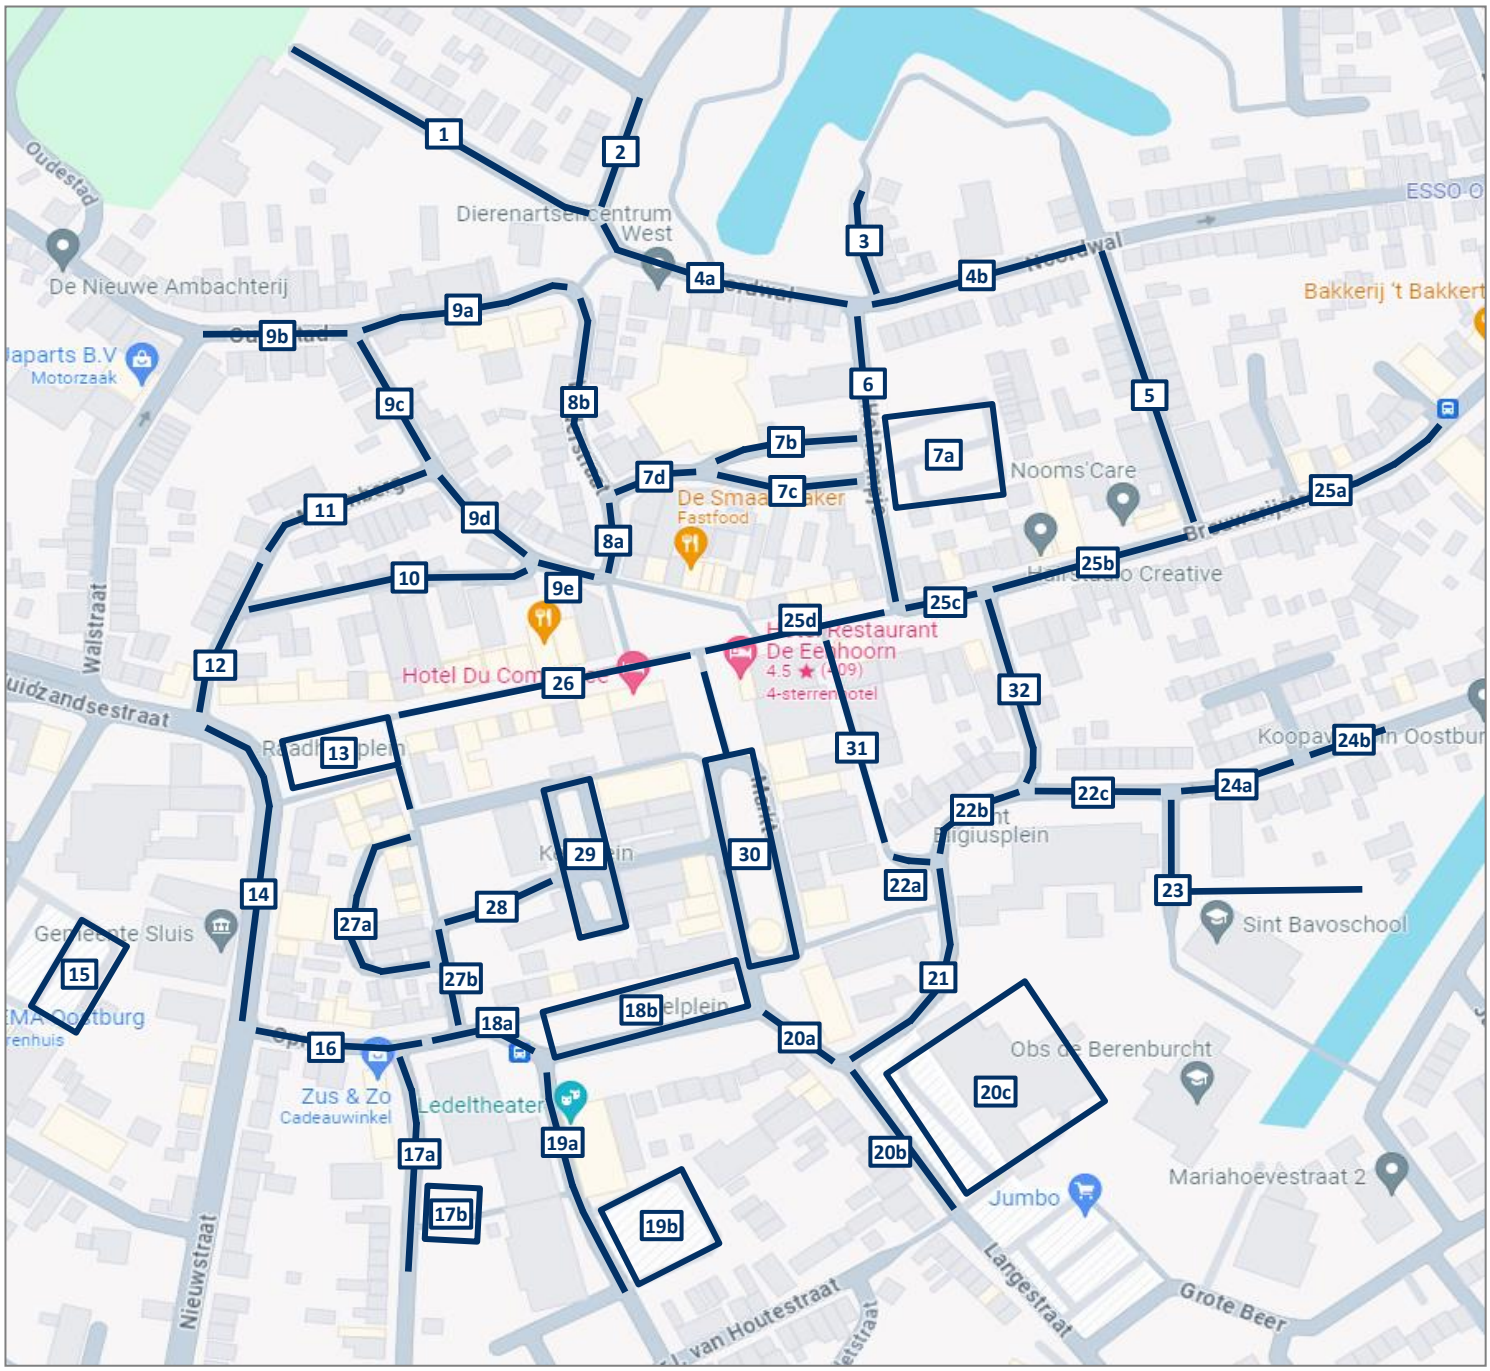

Aangezien er op het drukste moment op woensdag sprake is van een blauwe zone, moet er ook op detailniveau gekeken worden naar de parkeerbezetting.

In de blauwe zone is de bezetting 224.
Er kunnen dan nog 37 voertuigen in de openbare ruimte worden geplaatst, voordat een bezettingsgraad van 100% wordt bereikt.

In de blauwe zone mag maximaal twee uur geparkeerd worden.
Daarom moet er ook gekeken worden naar de secties buiten de blauwe zone.
Ook daar moet afdoende ruimte beschikbaar zijn tijdens de blauwe zone tijd (ma t/m za 09:00-16:00 uur).
In de ruimte buiten de blauwe zone is de bezetting 282.
Er kunnen dan nog 95 voertuigen in de niet-blauwe zone worden geplaatst, voordat een bezettingsgraad van 100% wordt bereikt.
