Dear [redacted]
I hope you do not mind my writing this letter in English.
We live on the [redacted] Winterswijk I am writing in reply to your letter to my Husband and I that we received from you on 29th January of this year regarding a plan to bring the bedrijventerrein to the Misteweg, which is very close to our home.
We bought a plot of ground on the [redacted] in 1991, after moving to Holland from Ireland, and built our house the same year. We love the countryside and chose to live here, rather than in a built up area, and chose to pay more money to live in this area, surrounded by nature.
Since that time the [redacted] has become busier, and especially in the last few years, the amount of enormous lorries driving on this road, with several bad accidents, is awful. It is not a suitable road for that kind of traffic. The speed limit was reduced to 60 but there are many cars, and lorries, who disregard this and drive dangerously fast. The traffic at the roundabout has also increased drastically, with long queues coming from the road to Aalten causing bad delays all the way past the hospital and all the way leading to Oeding.
And the suggestion is to build a bedrijventerrein on that very road. Imagine the amount of traffic, and the noise of traffic, we will have to endure. It starts at 6am and goes on late into the night. Even on a Sunday we have lorries roaring past. We already have HSF Logistics, [redacted] with all their lorries, which since the trees have been cut down we have as a very ugly view from our garden, our sitting room and upstairs bedrooms. And this is our home in what was once a peaceful neighbourhood. It doesn't seem fair, and this area will be spoilt for ever. And now the plan is a Bedrijventerrein practically opposite our home as well.
The plan by the Tuunte is also a bad idea for the traffic going past the Hospital.
I submit this letter in the hope that your plan will be reconsidered.
With Best Regards
[redacted]
