Principe detail fundatie

Opmerking:

Bovenstaande tekeningen geven de grenzen aan van de afmetingen van de windturbines.
Tussenliggende afmetingen zijn mogelijk.
De beeldbepalende kenmerken van een windturbine zijn de as-hoogte,
tiphoogte en de rotordiameter.
Deze tekening is niet bedoeld om de vorm en afmeting van de nacelle/gondel en
de mast vast te leggen.
Diepte en hoogte fundatie afhankelijk van grondonderzoek en
type windturbine (definitieve fundatieontwerp).
Kleurstelling van windturbine n.t.b.
Maaiveldhoogte t.p.v. windturbine.
Maaiveld nader te bepalen.
